BETTER VALUE

Since opening our first branch in Rockhampton in 1978, **Flexihire** has grown to 18 branches across Queensland and northern New South Wales, proudly serving both metro and regional communities. As a locally owned and operated Australian company, we've built our reputation on putting customers first and getting the basics right - so you can get the job done right.

Our focus on quality, safety, and service is backed by strong systems and efficient operations that keep our pricing competitive without compromising reliability.

What sets us apart is our local approach: our mechanics, drivers, and support teams are based in the communities we serve, ensuring fast response times and genuine local knowledge.

At **Flexihire**, we go above and beyond to deliver the equipment you need, when and where you need it. If it's not in stock locally, we'll source it quickly from across our network. Always dependable, always customer-focused - **Flexihire** are your trusted equipment hire specialists.

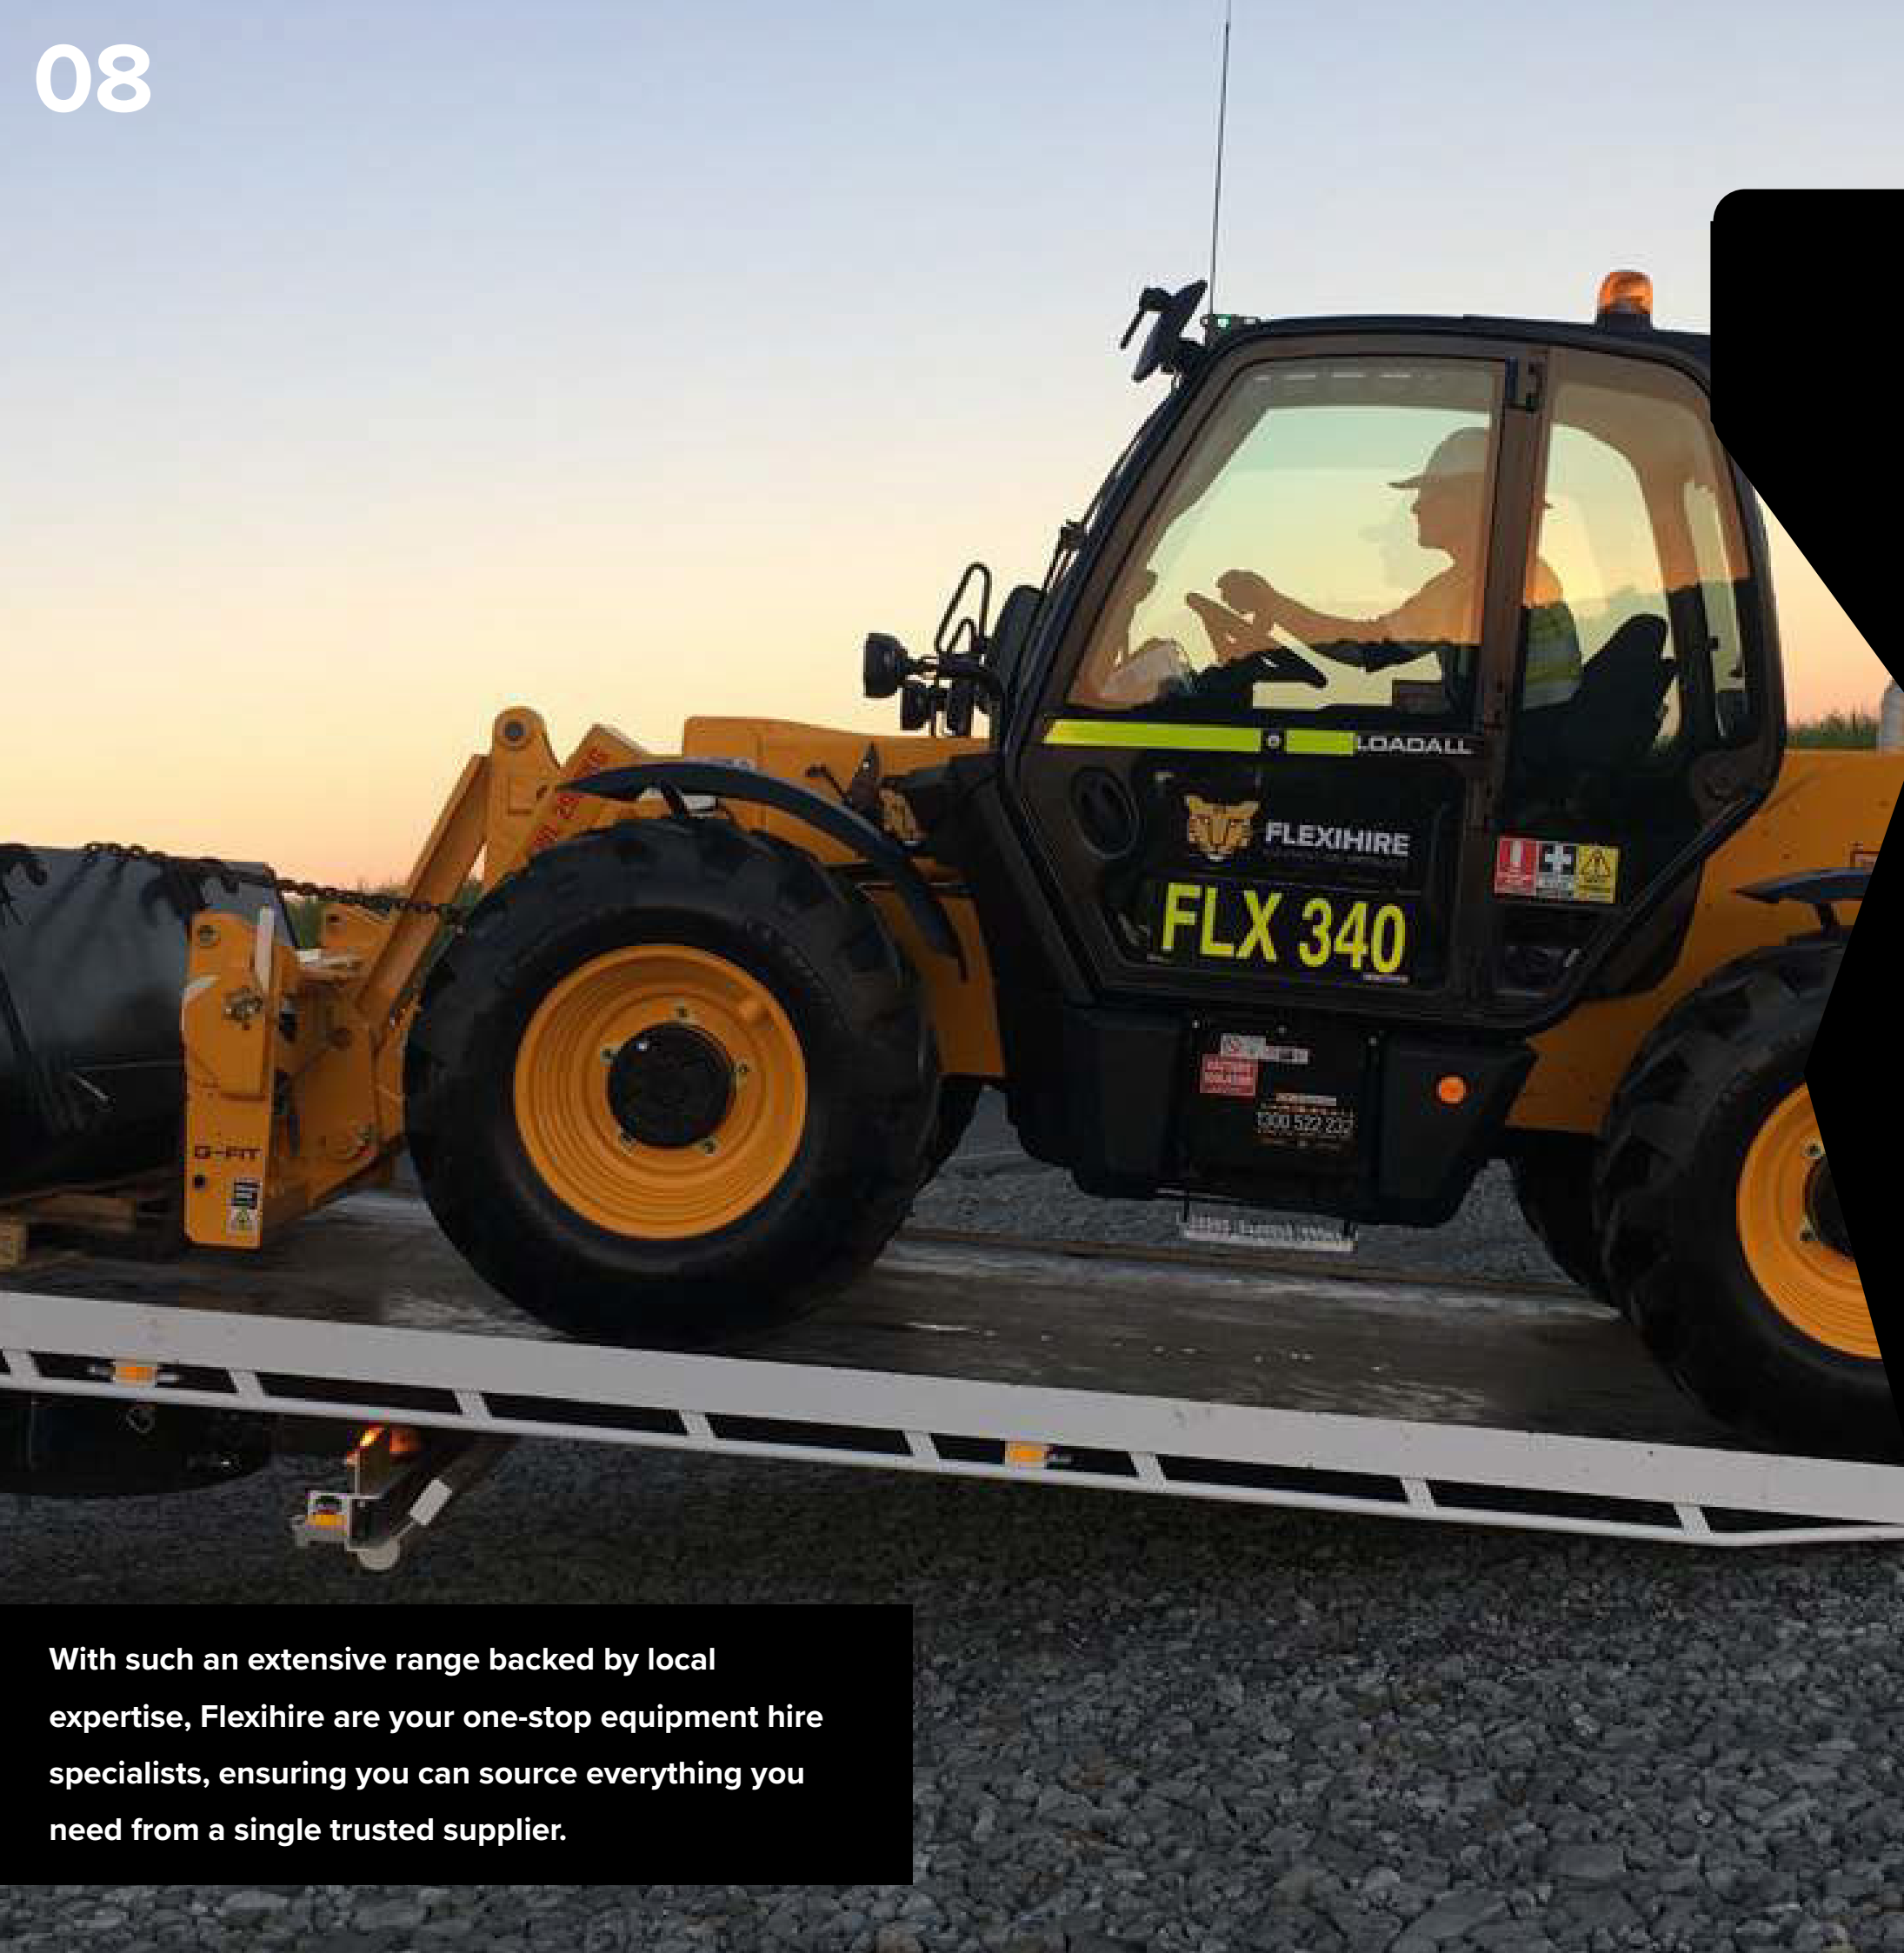

BETTER SERVICE

No two projects are the same - and neither are our solutions. At Flexihire, we provide flexible hire arrangements tailored to the specific needs of your job, ensuring you always have the right equipment at the right time.

Our experienced team takes pride in delivering more than just equipment - we deliver reliability, safety, and practical solutions that help you get the job done efficiently. With our own fleet of vehicles and local drivers, we guarantee safe, on-time delivery backed by responsive service and support.

Always proactive and customer-focused, Flexihire is committed to keeping your projects moving with service you can rely on every step of the way.

BETTER RANGE

With a fleet of more than 10,000 pieces of equipment, Flexihire offers one of the most comprehensive ranges in the industry. Always expanding, always maintained, and always ready to go - we make sure you have the right equipment for every stage of your project.

From small tools to large plant, our fleet covers:

- **Portable Buildings** and **Toilets**
- **Site Security** and **Fencing**
- **Compaction** Equipment
- **Concreting** Equipment
- **Air** Equipment
- **Earthmoving** and **Landscaping**
- **Access** and **Materials Handling**
- **Pumping** and **Plumbing**
- **Traffic Management**
- **Generators** and **Fuel Storage**
- **Welding** and **Electrical**
- **Cleaning** Equipment
- **Lighting** Equipment (Solar and Diesel)
- **Vehicles** (Tip trucks and water trucks)

With such an extensive range backed by local expertise, Flexihire are your one-stop equipment hire specialists, ensuring you can source everything you need from a single trusted supplier.

BETTER PEOPLE

Flexihire is 150+ people strong with a spread of skill-sets across our 18 locations. We are proud to be an equal opportunity employer through our support of the HRIA Women in Hire initiative and employment of youth, indigenous and older workers.

We also:

- Employ and empower engaged people who care
- Provide modern work place facilities
- Maintain a modern, reliable and safe transport fleet
- Provide appropriate resourcing & support
- Establish defined yet flexible processes to be responsive to customer needs
- Maintain ongoing training to ensure consistency with critical tasks
- Conduct forums to listen and respond to ideas and change

FLEXIHIRE SUSTAINABILITY

1. RENEWABLE & LOW-EMISSION EQUIPMENT

- We've begun transitioning from diesel-powered site lighting to our brand new range of solar-powered lighting solutions, reducing fuel consumption, emissions, and operating costs for projects in remote and urban areas alike.
- Our generator fleet is constantly evolving, with options that are more fuel-efficient, lower-emission, and better suited to modern sustainability expectations, such as our brand new solar-powered Purple Pod generators.

2. CUSTOMER & COMMUNITY BENEFITS

- We help clients meet their own sustainability goals by offering cleaner equipment alternatives and by quantifying environmental savings where feasible (e.g. lower fuel use, lower emissions).
- In rural and remote project areas, switching to solar-powered lighting or efficient generators also means lower logistics cost, reduced noise, fewer servicing trips — which is better for both the environment and project budgets.

3. OPERATIONAL EXCELLENCE & LOCAL IMPACT

- Our internal operations are designed to reduce environmental footprint: regular maintenance ensures efficient performance; logistics and delivery are optimised to minimise fuel usage; waste is managed responsibly.
- Local teams (mechanics, drivers, support staff) help lower transportation overheads and emissions, since we are delivering from nearby centres rather than always hauling from far away.

4. CIRCULAR-ECONOMY MINDSET

- Wherever possible, we refurbish, re-work, and re-life equipment and components rather than replacing them outright.
- If a specific item isn't in stock locally, we source it from elsewhere in our network — rather than buying new — to reduce waste and improve utilisation across branches.

5. LOOKING FORWARD

- We're monitoring emerging technologies (battery-electric, hybrid power solutions, etc.) with the aim to incorporate them into our fleet where they make both environmental and commercial sense.
- We aim to enhance transparency around our environmental performance via tracking metrics such as fleet emissions, fuel usage, and energy consumption, so our customers can see real progress.

SUPPORTING COMMUNITIES

We are extremely proud of the role we play across Queensland and NSW, supporting not only our customers, but also providing a helping hand when communities need us. As a 100% Australian-owned and operated business, **Flexihire** is deeply committed to the communities we serve across metropolitan and regional Queensland and northern NSW.

We're proud to be an Official **TIACS** Alliance Partner, supporting a free and confidential phone and text counselling service that provides vital mental health assistance to tradies, truckies, rural workers, blue-collar industries, and their loved ones nationwide.

Our community support extends to organisations big and small, from local charities and volunteer groups to junior sports clubs. We are honoured to partner with the **Enriching Lives Foundation** and the **Stan Alberts Shield**, helping to strengthen and empower Indigenous communities.

We also back the next generation of athletes, offering financial support to help young talent train and compete at elite levels, both nationally and internationally.

Foundation

FLEXIHIRE SOLAR SOLUTIONS

Flexihire is leading the way in renewable site solutions with our expanding fleet of **solar-powered lighting** towers. Equipped with the latest Lithium Iron Phosphate battery technology and advanced solar array charging, our units deliver reliable, high-performance lighting with **zero emissions, zero noise, and minimal operating costs**.

Each unit provides a minimum of **29 hours of continuous run time**, making them ideal for multiple shifts, large-scale events, and dusk-to-dawn site safety requirements. By combining sustainability with performance, our solar lighting fleet offers a smarter, cleaner alternative to traditional diesel-powered options.

KEY FEATURES

GP43K Metro Solar Lighting Tower has been built to suit various industries and is compliant with both metropolitan and mining specifications.

- 7-day timer
- Day/night modes
- Jack pads
- Audio safety messages
- Fire extinguisher
- Emergency stop
- Isolators
- Tilt sensor
- AC charger
- Tie-down points
- Lifting points
- Auto-lowering mast

NEXT GENERATION

One of the newest members to the **Flexihire** fleet, the Purple Pod is a compact hybrid energy unit designed to replace diesel generators up to 45kva. An all in one, compact renewable solution, the Purple Pod includes a fuel optimised diesel generator, a 2kw solar cassette, up to 60kw/h of LiFePO energy storage and a fully remotely controllable inverter package that enables you to see and control everything that's happening on your site from any location with a mobile phone signal.

"In most applications, the Purple Pod will reduce your daily reliance on diesel generators by between 90 and 100%."

PROJECT CAPABILITY

MAJOR CIVIL & INFRASTRUCTURE PROJECTS

We have the specialist equipment to handle highways, bridges, roads, rail construction, dams, project pipelines, subdivisions, wind and solar farms, commercial building site preparation or any major project.

MINING

Ready and experienced to support every stage of mining operations, from initial site set-up and construction through to ongoing maintenance and major shutdowns. Our extensive fleet of mine-spec equipment meets industry compliance requirements.

MILITARY TRAINING EXERCISES

Flexihire has the capability and experience to support defence and military training operations with complete camp set-ups and on-site support. From portable buildings, lighting towers, and power generation through to pump-out services. We provide everything required to establish and maintain secure, fully equipped training environments.

COMMERCIAL BUILDING & RESIDENTIAL CONSTRUCTION

Flexihire can supply and delivery the equipment for everything from house renovations to high rise construction and maintenance works. We provide on-time solutions to keep your projects running.

BETTER SAFETY

"At Flexihire, safety is not just a policy - it's a core value that underpins everything we do."

At Flexihire, the health, safety, and wellbeing of our people, customers, and the wider community is our top priority. We foster a strong safety culture where every team member takes personal responsibility for Health, Safety and the Environment (HSE) through their daily actions.

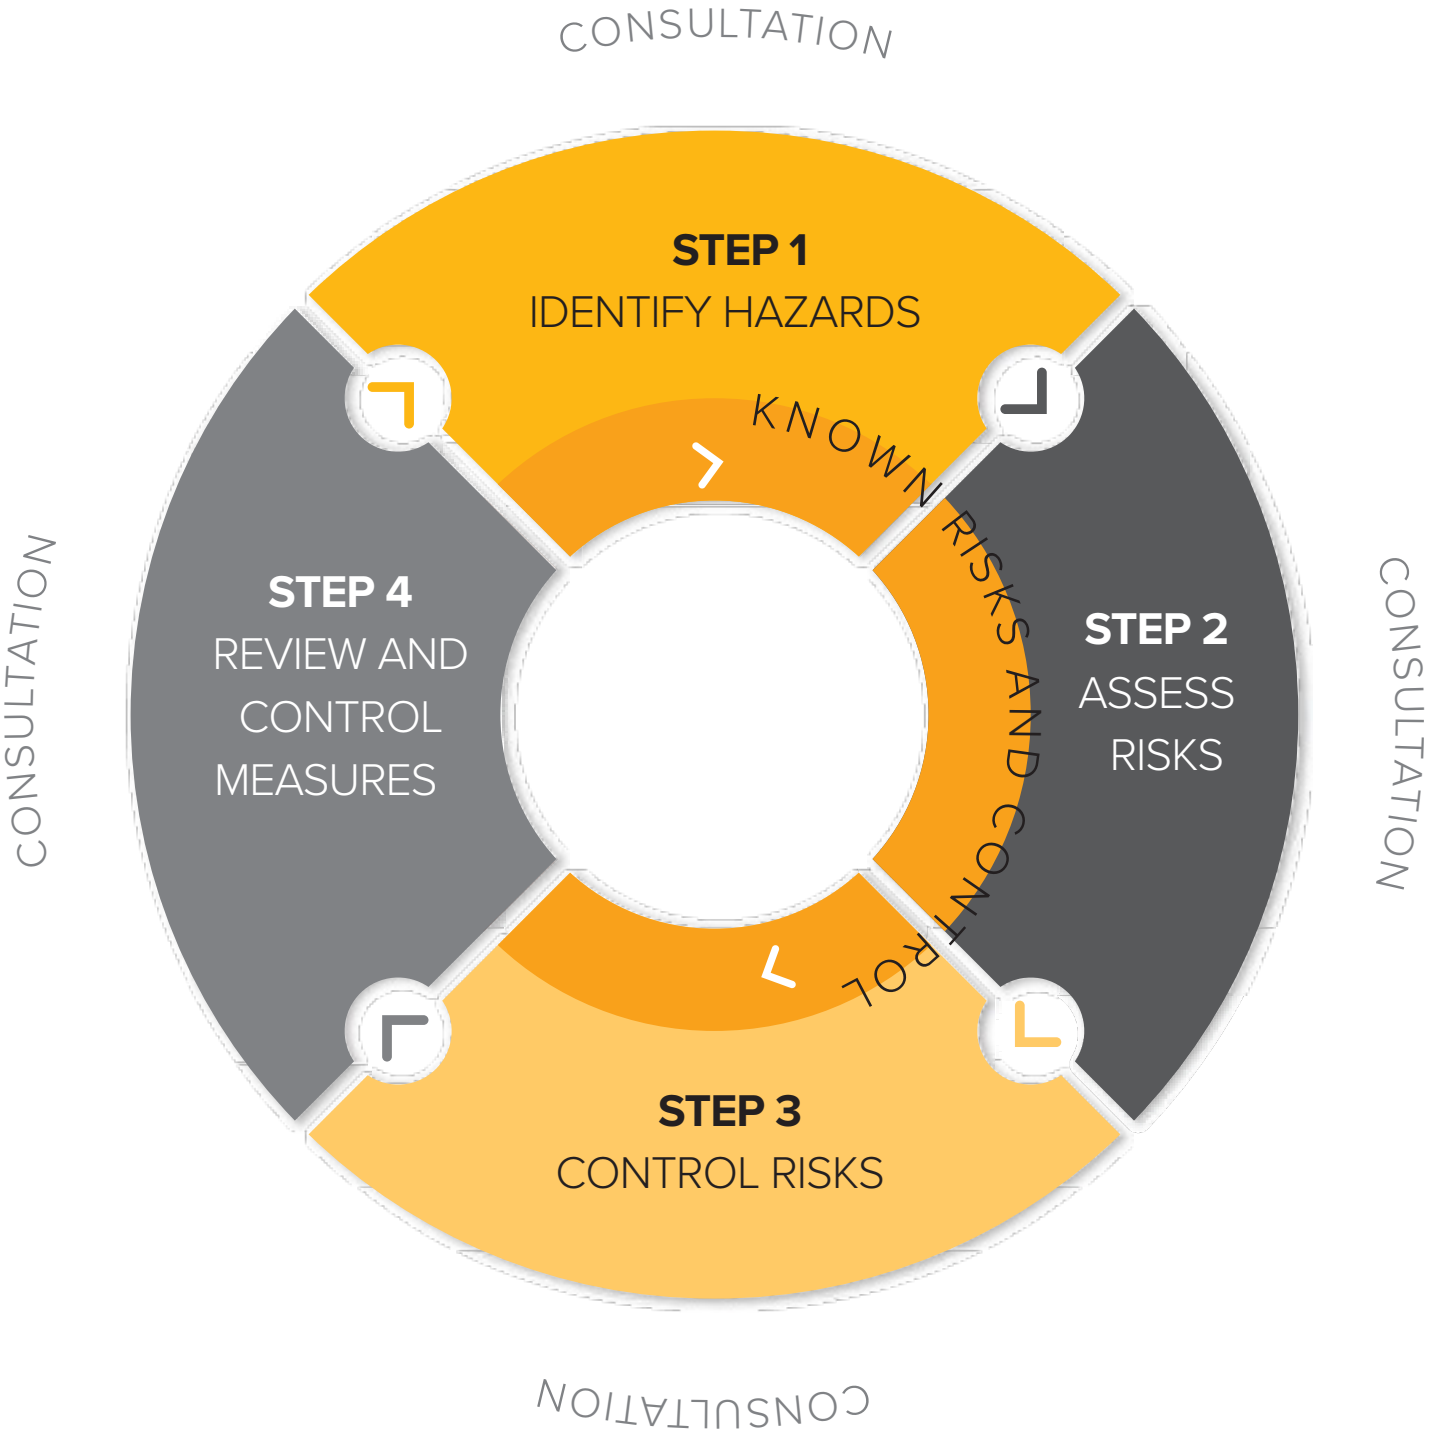

All new employees and visitors complete a tailored induction program specific to their branch and role, ensuring everyone understands our standards and expectations from day one.

OUR COMMITMENT

We are committed to:

- Identifying and understanding all hazards across our operations.
- Assessing, controlling, and continuously monitoring risks.
- Complying with all legal, regulatory, and industry requirements.
- Regularly reviewing and improving our systems and controls.
- Minimising environmental impacts through responsible processes.
- Encouraging open and transparent communication with all stakeholders.
- Providing the resources, training, and equipment needed to uphold these standards

OUR RISK MANAGEMENT PROCESS

Accreditation

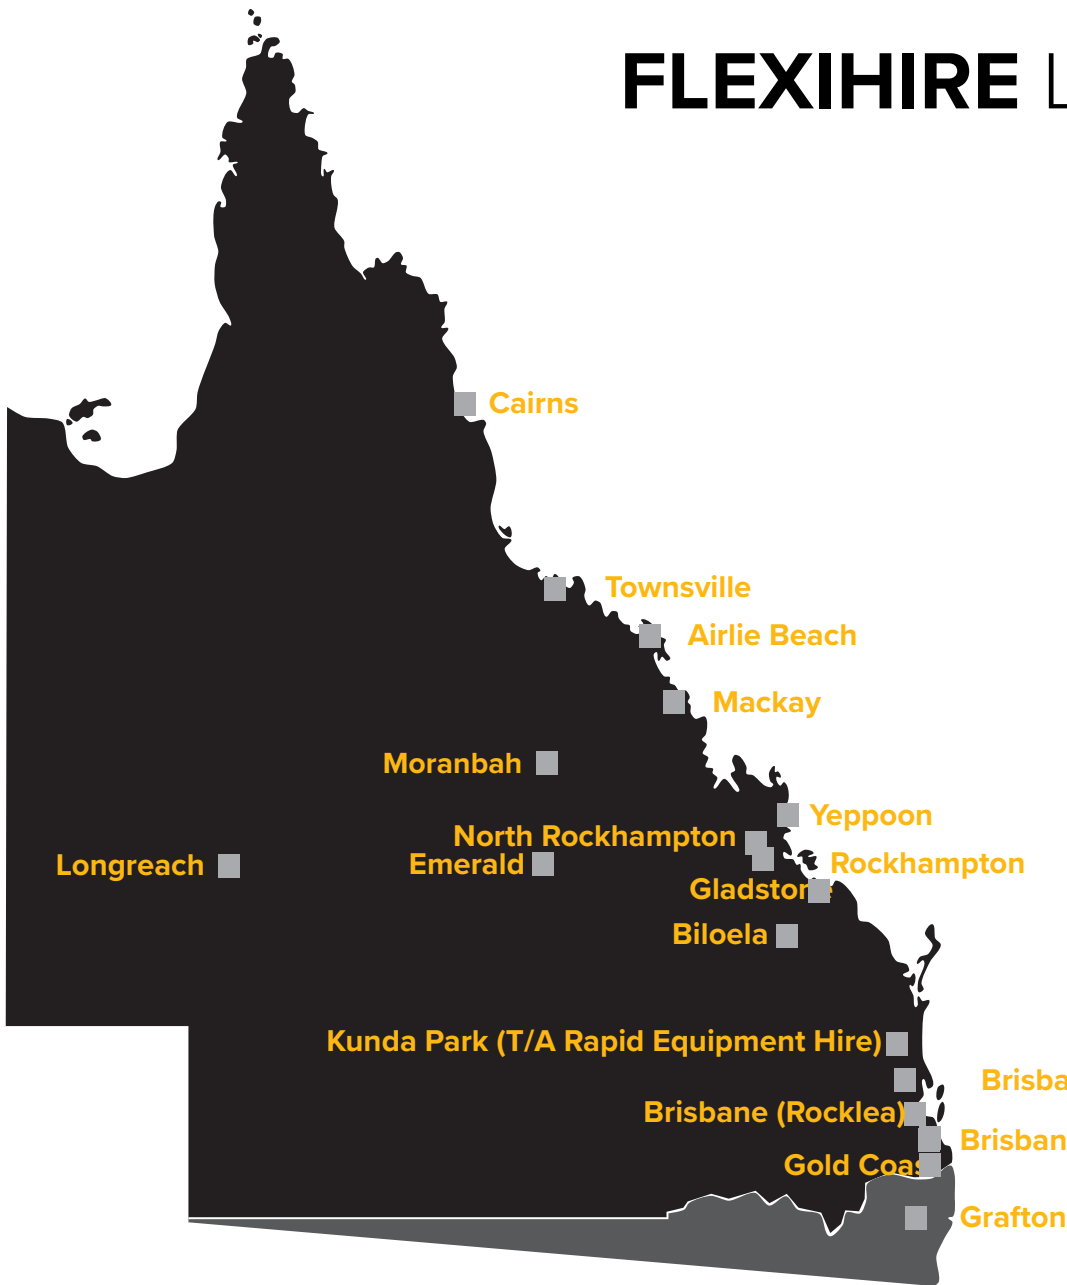

OUR VALUES

AT FLEXIHIRE, WE ENSURE ALL BUSINESS DEALINGS ARE UNDERPINNED BY **FOUR KEY VALUES**. IF WE CAN'T DELIVER A PROJECT IN LINE WITH OUR VALUES, THEN WE DON'T DO IT.
