EQUIPMENT HIRE SPECIALISTS

Flexihire opened its first branch in Rockhampton in 1978 and has since grown to 18 locations across Queensland and northern New South Wales, proudly serving both metro and regional communities. As a locally owned and operated business, we are a proud Queensland company with a strong reputation for putting our customers first.

Our strong growth is founded on getting the basics right, so our customers can get the job done right. We focus on quality, safety and service with strong back office systems supporting every branch.

Superior, local service is at the heart of what we do. Our mechanics are local. Our drivers are local. Our support teams are local. We are committed to providing a seamless hire experience for our customers and going above and beyond to get customers what they want, when they want it. If we don't have it in stock locally, we will source it from somewhere else.

Always reliable and with strong customer relationships built on trust, Flexihire are your Equipment Hire Specialists.

ACCESS EQUIPMENT

ACCESS EQUIPMENT

Flexihire is your go-to destination for access equipment hire, with solutions to help you work safely and efficiently at any height. From construction to maintenance and everything in between, our extensive fleet has you covered. Choose from the latest hybrid, electric, and diesel all-terrain scissor lifts, trailer-mounted cherry pickers, as well as knuckle and telescopic boom lifts. Whatever the challenge, Flexihire has the right equipment to get the job done - safely, reliably, and at the height you need.

SCISSOR LIFTS

ELECTRIC SCISSOR LIFTS / MAN LIFTS

Quiet, efficient and designed to increase productivity, electric scissor lifts are extremely versatile and mobile. Excellent for working at heights in a range of construction work, typically geared towards indoor and slab work applications. Non-marking tires are a bonus for indoor worksites.

TYPE	MAKE/MODEL	PLATFORM HEIGHT	WIDTH	LENGTH	LIFT CAPACITY
Manlift	Genie GR15	4.47m	0.75m	1.35m	227kg

BOOM LIFTS

Perfect for tight access and hard-to-reach areas, articulating boom lifts feature multiple boom sections that hinge, featuring a combination of up, out and over positioning capabilities that offer operators brilliant versatility. Ideal for outdoor construction and industrial applications where the maneuverability features of the articulating boom lift will allow operators to bypass fixtures, walls and other hurdles.

Range includes hybrid, electric or rough terrain diesel models.

ELECTRIC ARTICULATING BOOMS

BOOM LIFTS

ACCESS EQUIPMENT

DIESEL STICK BOOMS (ROUGH TERRAIN)

Stick boom lifts are elevated work platforms with boom sections that extend telescopically and feature greater horizontal outreach than any other type of platform. Our range of stick boom lifts will get you exactly where you need to be by providing maximum horizontal and vertical outreach position quickly and easily.

TYPE	MAKE/MODEL	PLATFORM HEIGHT	WIDTH	LENGTH	LIFT CAPACITY
46'	Snorkel 460SJ	14.0m	2.31m	6.55m	272kg
66'	JLG 660SJ	26.21m	2.49m	12.19m	340kg
86'	Skyjack SJ86T	26.20m	2.49m	12.95m	227kg
135'	JLG 1350SJP	41.20m	2.50m	14.90m	453.6kg

TRAILER MOUNTED BOOMS (CHERRY PICKERS)

Trailer Mounted Booms are a great option for those on the move. They can be towed by a normal vehicle and be used on all firm surfaces. Trailer Mounted Booms are great for tree lopping, painting and cleaning.

MODEL	MAKE	PLATFORM HEIGHT	WIDTH	LENGTH	LIFT CAPACITY
120T	Nifty	10.2m	3.55m	4.5m	200kg
MHP13/35	Snorkel	10.9m	3.6m	4.9m	215kg
MHP15	Snorkel	13.4m	3.7m	7.45m	227kg

*Bi-energy options available (petrol - electric).

EARTHMOVING & LANDSCAPING

Flexihire has a huge range of earthmoving, gardening and landscaping equipment suitable for large-scale construction site work right down to DIY garden improvements.

EARTHMOVING & LANDSCAPING

EXCAVATORS

14 TONNE

The Kobelco SK135SRLC-3 offers an air-conditioned cab with a compact design, allowing for continuous digging, swinging and loading in tight spaces, with a working space of 3.5m.

23 TONNE

Equipped with a high-performance Tier 3 engine, these machines deliver an impressive 127kW output with 22% higher torque than previous models and eliminate the need for DPF or AdBlue. The Kobelco SK225SR-7 also features a Trimble GPS.

MODEL	MAKE	CABIN/ CANOPY	WEIGHT	HEIGHT	WIDTH	DIGGING DEPTH	BUCKET BREAKOUT
SK135SRLC-3	Kobelco	Cabin	14,400kg	2,490mm	2,490mm	5,290mm	9,190kgf
SK225SR-7	Kobelco	Cabin	23,300kg	3,150mm	2,800mm	6,580mm	13,460kgf

WHAT IS TRIMBLE GPS MACHINE CONTROL?

Trimble GPS is an advanced positioning system that guides excavators in civil construction, helping operators dig, trench, and grade with pinpoint accuracy. It reduces guesswork and rework, improves safety and efficiency, and lowers fuel and material waste, helping projects be completed faster and more cost-effectively.

EXCAVATORS

2 - 8 TONNE

Flexibility and power to work wonders in narrow spaces.

WHEEL LOADERS

The JCB 9 & 14-tonne loaders offer excellent visibility with large glass panels and a sloped engine cover for clear rear and pivot views. Automatic traction control, smart hydraulics, and automatic transmission boost efficiency and reduce fuel costs. The spacious cab features an ergonomic high-back seat, intuitive controls, and ample storage, while inclined steps and grab handles ensure safe, easy access.

SITE DUMPERS

HYDREMA 912GS

Hydrema's 912G series is engineered to perform tasks in the rough off-road terrain. The 912GS comes with articulated steering for superior manoeuvrability. These machines are not only light in weight but also powerful in operation, ensuring long durability and reliability in even the most demanding conditions. Perfectly adapted for diverse construction sites and demanding terrains, they offer long-lasting efficiency and performance.

LANDSCAPING

RED ROO SG30-TRX STUMPGRINDER

This all-terrain dedicated track stump grinder allows a joystick-controlled operation of the stump grinding head. The SG30TRX will cut an arc that is 99"(2450mm) 134 Degrees. The track system features a true skid-steer type drive and provides excellent maneuverability, allowing the operator to easily transport the unit to and from the work site. Intuitive controls provide one control for each track and a joy stick to control all cutting head functions.

GENERATORS & FUEL

GENERATORS & FUEL

Flexihire has a large range of generators ranging from 2Kva up to 500Kva with an extensive range of accessories available to suit and diesel fuel tanks to keep them running. The Flexihire generator fleet is constantly evolving, with options that are more fuel-efficient, lower-emission, and better suited to modern sustainability expectations, such as our brand new solar-powered Purple Pod generators.

SINGLE PHASE 240V GENERATORS

TYPE	FUEL
2 to 3KVA	Petrol
5 to 7KVA	Petrol
8 to 10KVA	Petrol
6KVA	Diesel
9KVA	Diesel

*Larger generators and paralleled combinations available on request.

**Extended run-time fuel tank options available on 9KVA.

ON-TRAILER GENERATORS

TYPE	FUEL	FEATURE
Electric 20KVA	Diesel	On trailer
Electric 40KVA	Diesel	On trailer
Electric 60KVA	Diesel	On trailer

THREE PHASE 415V GENERATORS

AVAILABLE RANGES	FEATURES
10 - 14KVA	<ul style="list-style-type: none"> • Diesel powered • Silenced cabinets • Skid mounted • Supplied with ELCB & Earth stakes
15 - 20KVA	
25 - 30KVA	
35 - 40KVA	
50 - 60KVA	
70 - 80KVA	
100KVA	
150KVA	
200 - 250KVA	
325KVA	
500KVA	

ACCESSORIES AVAILABLE ON REQUEST

- Distribution boards + single/3ph Leads
- Fuel Cells/Tanks

SOLAR-POWERED GENERATORS

One of the newest members to the Flexihire fleet, the Purple Pod is a compact hybrid energy unit designed to replace diesel generators up to 45kva. An all in one, compact renewable solution, the Purple Pod includes a fuel optimised diesel generator a BESS (Battery Energy Storage System), a 2kw solar cassette, up to 60kw/h of LiFePO energy storage and a fully remotely controllable inverter package that enables you to see and control everything that's happening on your site from any location with a mobile phone signal.

CALCULATING YOUR GENERATOR SIZE

Calculating the size of your generator can be difficult. Amps, voltage, KW and KVA are all common power terms. Typically generators are measured in KVA, motors in KW and other loads such as welders in amps and volts. So as a simple rule of thumb the following formulas should help.

CALCULATE		METHOD
KW single phase	=Volts x Amps	
KVA single phase	=kW x PF or (=Volts x Amps x PF)	
kW three phase	=Volts x Amps x 1.73	
KVA three phase	=kW x PF or (=Volts x Amps x 1.73 x PF)	
Amps single phase	=kW/Volts	
Amps single phase	=KVA/PF/Volts	
Amps three phase	=kW/Volts/1.73	
Amps three phase	=KVA/PF/Volts/1.73	
PF	Is the power factor - check the appliance or motor being powered

DIESEL FUEL TANKS

1,000L to 4,500L Fuel Tanks/Cells, Bowser & Trailered Options

At Flexihire our range of diesel fuel tanks for hire includes towable diesel refuelling tanks, to provide reliable fuel storage and distribution solutions for your construction, mining, agricultural, and industrial projects. Our diesel fuel tanks are designed to safely store and transport diesel fuel, ensuring a convenient and efficient fueling process. With our high-quality equipment and exceptional service, you can ensure a steady fuel supply and maximize productivity on your job site.

Our towable diesel refuelling tanks are ideal for on-site refueling operations, enabling you to transport fuel to various locations effortlessly. These tanks are mounted on a robust trailer, allowing for easy towing by a vehicle. With their portable design and ample fuel capacity, towable diesel refuelling tanks provide a convenient and efficient solution for keeping your equipment and machinery fueled on the go.

VEHICLES & TRUCKS

Flexihire offers a versatile fleet of vehicles and trucks for hire, including flatbed trucks, tip trucks, and water trucks to suit a wide range of applications. Our tip trucks feature hydraulic tipping systems for efficient loading and unloading, making them ideal for transporting materials such as soil, gravel, sand, and construction debris across construction, landscaping, and waste management projects. Flexihire's water trucks are equipped with high-capacity tanks and are commonly used for dust suppression, soil compaction, irrigation, and firefighting in construction, civil, mining, and agricultural environments.

Available in various sizes and configurations, our water trucks can be fitted with spray bars, pumps, and other attachments to meet site requirements.
