
Yale UX Series

Internal Combustion Counterbalanced Forklift

GP20-35UX / 2000 - 3500kg

www.yale.com.au

Yale[®] 
People. Products. Productivity.™

Features

1 High Strength OHG ►

The overhead guard features profiled steel with high strength glass to enhance reliability and operator protection.

2 Suspension Seat ►

A full suspension seat that offers excellence in comfort, with an operator presence system fitted as standard.

3 Low Step Driver Height ►

Convenient step placing to suit a variety of heights to ensure easy access to the truck at all times.

◀ 4 **Wide View Mast**

The wide mast features an outside width of 720mm. It can significantly improve the driver's front field of view while increasing the safety and comfort of operating the truck.

◀ 5 **Small Steering Wheel**

The adjustable steering wheel is convenient for the operator as it provides 8 degrees of adjustment. It is also easy to navigate when working in narrow spaces.

◀ 6 **Japanese Engine**

The UX Japanese engine provides reliability and ease for sourcing replacement parts.

GP20-35UX

The Yale® UX Series provides the ideal solution to meet your less frequent usage needs, without compromising on performance.

► The Range

The range consists of 2,000 - 3,500kg. IC counterbalance, pneumatic tyre forklift trucks, available in four different capacities:

2,000kg – GP20UX / 2,500kg – GP25UX
3,000kg – GP30UX / 3,500kg – GP35UX

Each model is available with diesel, LPG or dual-fuel power, a single-speed powershift transmission and a range of front end equipment options to suit varying application requirements.

► Easy to Operate

The ergonomically designed operator compartment, with a familiar automotive layout, means that drivers will be able to work comfortably. A range of standard features and options help to ensure that the truck is configured to the needs of the application.

► Serviceability

Due to the simplicity of the components and specifications, servicing can be carried out quickly and easily.

► Low Cost of Ownership

The use of high quality, robust components, efficient filtration and excellent cooling helps contribute to reliable operations and lower wear and tear. This, together with the fast availability of cost-effective replacement parts helps to reduce service and maintenance requirements and costs.

► Comfort

- Yale special display with 3.5" LCD
- Large foot room on floor plate
- Dual suspension system
- Hand parking brake lever with button greatly reduces fatigue in operation
- Small diameter steering wheel with adjustable steering column

► Safety and Stability

- Wide view mast
- High strength overhead guard
- Muffler and engine protective system
- Low centre of gravity

► Easy Maintenance

- Large access area for service and repairs
- Simple components
- Computer-based diagnostics not required

► Reliability and Exchangeability

- Triplex plate overhead guard
- Exchangeable components across models

► Environmental Protection

- Noise isolation material
- Environmentally-aware design

Engineered for drivers with Comfort, Safety and Ergonomics

▶ Yale Display with 3.5" LCD

- The Yale UX Series Forklift adopts a 3.5" LCD display, providing convenient viewing of the display data when driving and operating

▶ Hand Parking Brake

- Low effort to operate park brake lever
- Hand parking brake lever with button reduces operator fatigue

▶ Large Foot Room

- Spacious foot room design provides comfort, convenience and safety
- Control pedals provide extra foot space which reduces operator fatigue and increases operator comfort

▶ Dual Suspension System

- The specialised dual-suspension system decreases vibration and noise
- Full floating safeguard/cabin system
- Engine vibration damper
- Suspended transmission replaces traditional rigid connections

► **Small Diameter Steering Wheel with Adjustable Steer Column**

- The 300mm diameter steering wheel is easy to manipulate, responsive, and ensures optimum mobility when working in a narrow space
- The ideally positioned steering wheel allows 8 degrees of adjustment, to suit a variety of different operators

► **High Strength Overhead Guard**

- Profiled steel overhead guard
- High strength roof with high strength glass enhances reliability and operator protection
- Mast composite roller structure

► **Wide View Mast**

- The wide view mast with an outside width of 720mm, significantly improves the driver's front field of view, reduces blind spots, and increases the safety and comfort of the operation

► **Large Access Area for Service and Repairs**

- Large access space to engine compartment makes service and repairs more convenient

▶ Suspension Seat

- Full suspension seat offers excellent comfort
- Operator presence system as standard

▶ Triplex Plate Overhead Guard

- The overhead guard is developed using three pieces; left side, right side and top canopy making replacement more convenient

▶ Exchangeable Components

- Engine cover, instrument panel, display and most other components are exchangeable with other capacities in the same range
- Front fenders adaptable to single or dual wheel configuration

▶ Improved Lifting Speed

- Competitive lifting speeds

Options

Yale UX Series trucks feature a comprehensive range of standard equipment, with a number of options available to suit the specific needs of your application, including:

- LPG, dual-fuel or diesel
- Pneumatic-shaped solid, or dual tyres
- Various fork lengths
- Integral sideshift
- Swing-out drop down LPG bracket
- Rear, LED work light
- Strobe light
- Backup alarm
- High air intake with pre-cleaner
- Tilt cylinder boots
- Various mast heights
- 3 way catalytic purifier on LPG engines
- Glass roof
- Front window with wiper

Please refer to the Price List for full option configurations.

► GP20UX Rated Capacity KG@ 500MM Load Centre
